

# The UNIFOLD™ Gutter Lining SOLUTION

## AMPTTEAM

GUTTER SPECIALISTS • SITE SURVEYS • DESIGN • DEVELOPMENT • MANUFACTURE • SUPPORT

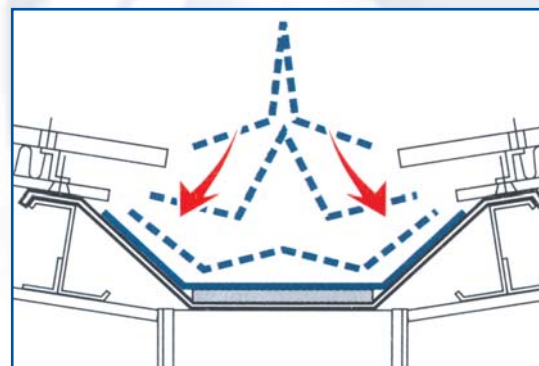

The long term repair of leaking gutters is extremely difficult. Most joint bandage repairs and coatings can only be considered as emergency contingencies whilst a more permanent solution is sought, or one which will last for 1 to 3 years until the process needs to be repeated.

A gutter lining is more of a permanent solution. The chosen system must be able to correctly address the problems with which it is faced and be able to provide a true, quality assured solution for all variations of gutter design, both past and present.

The solution is a system that is correctly designed and engineered to maximise the available space within the existing gutter cavity, will remain rigid and stable in service, will offer an exceptional life and be **GUARANTEED NOT TO LEAK**

**The answer is UNIFOLD™**

**UNIFOLD™** is the most complete, comprehensive and effective gutter lining system available; there are no circumstances for which there is not a credible and correct solution.

*It is entirely bespoke and able to cope with almost any situation encountered with complete success.*

*It is easily installed with the absolute minimum of disruption to the process beneath.*

**Unifold is in fact, a new gutter system when installed.**

### UNIFOLD™ Guarantees & Benefits

- Long life - 20 year guarantee but made to last in excess of 30 years.
- No disruption to production processes beneath.
- Cost effective - eliminates need to remove or modify existing sheeting.
- Easily fixed - fixing techniques follow existing and proven practices
- Lightweight - minimal increase to dead and imposed loads
- Maximum retained gutter capacity.
- Existing gutters may be insulated with ease.
- Leaking gutters will be a thing of the past.

## UNIFOLD™ Solution

Each Unifold gutter is designed to provide the client with the best possible solution. On occasions this will result in an improvement in size and performance over the original gutter.

### Survey

Whenever possible gutters are surveyed by Ampteam personnel. This ensures design accuracy and helps provide the optimum Unifold Solution.

### Engineered System

Unifold is a totally engineered product, manufactured using unique processes. Machinery employed uses the latest technology with supreme accuracy. Unifold is delivered to site in the most convenient form possible. All units are provided fully fabricated and sealed leaving the simplest of site operations to install the system.

**This ensures a quality installation every time.**

## Suitability

Unifold is suitable for refurbishing the vast majority of commercial and industrial gutter systems including asbestos cement, cast iron and G.R.P. It is even used as a replacement to lead gutters on listed buildings. Single or multiple hinges ensure that unifold is suitable for the most difficult access solutions.

***Unifold is a fully engineered system that is designed for each specific lining application. No conditions however unusual or complex are beyond its capabilities.***

## Guarantee

The Unifold™ system is backed by a comprehensive 20 year guarantee. This guarantee warrants that the gutter lining is free from defects in material and manufacturing workmanship and installation. After the installation has been completed, the approved contractor will issue the guarantee which then runs for 20 years. However, Unifold™ has been designed to be effective well in excess of 30 years.
