

ADVANCED CLADDING & INSULATION GROUP Ltd.

# Angle finder

**RAYMASTER  
HAS ALL THE ANGLES COVERED**

**£9.99 + VAT  
Plus p&p**

- **Ideal for Roofing Contractors**
- **Saves all those awkward calculations**
- **Instant angles (for roofs and ceilings)**
- **Pocket sized**
- **Valuable time saver**
- **Worth its weight in gold**
- **Accurate to 0.5 degrees**

**Measures and check with confidence:-** pitch of a roof or ceiling from the outside or inside, declination of drainage pipes, level of stair rails & banisters, angles when bending pipes or conduit, engineering angles (i.e. bicycle frames, structural steel work), uprights when putting up shelves. Level of walls & brickwork, level of lintels & RSJ's and the squareness of door & window frames, plus many more applications.

**Monitor applications such as:-** safety gradients on tractors & off-road vehicles, deformation of walls, sagging in load-bearing beams, level of trailer & caravans, heeling of boats, and stepping of yacht masts, pipe levels in tight places, gradients on driveways & gutters, levels of patios, garden swings, climbing frames, satellite dishes & pool tables, levelling of machinery and angles for orthotic devices, plus many other applications.
